

BRIEF EXPERT REPORT / SHIELDING ATTENUATION

Material under test

Shielding fabric **SILVER-ELASTIC**.

Subject

Measurement of the shielding attenuation of electromagnetic waves from **30 MHz to 4 GHz**.

Date of measurement

02.04.2013

Guarantee

We at YSHIELD have many years of know-how in measuring the attenuation of shielding products. Herewith we guarantee the technical accuracy and correctness of the measurement.

Regulations

Near-field measurement with non-directional (radial) polarisation in TEM specimens according to **ASTM-4935-10**.
